PLANET 33 netwrix

Netwrix PingCastle

Identify and remediate risks in your hybrid AD security posture

Netwrix PingCastle helps you uncover misconfigurations and hidden vulnerabilities across Active Directory and Entra ID, pinpointing weaknesses before they become entry points for attackers. Gain clear visibility into your hybrid AD security posture and follow guided steps to strengthen your defenses against evolving identity threats.

RAPIDLY IDENTIFY RISKS

Get a comprehensive view of the risks across your Active Directory and Entra ID. Leverage MITRE ATT&CK™ and ANSSI mappings with risk scoring to focus security efforts effectively.

CLOSE SECURITY GAPS

Reduce your AD attack surface by tackling the riskiest vulnerabilities first. Strengthen your identity security posture with targeted actions that keep your critical assets safe.

MONITOR AND IMPROVE

Run Netwrix PingCastle on a scheduled basis across domains to detect new risks. Track progress and security score improvements to ensure ongoing AD protection.

Key Features of Netwrix PingCastle

ACTIVE DIRECTORY HEALTHCHECK REPORT

Comprehensive visibility into your hybrid AD security posture, with risk scoring aligned to MITRE ATT&CK™ and ANSSI frameworks for prioritized remediation.

ACTIVE DIRECTORY MAP

A visual map of domain relationships, trust configurations, and attack paths, with health scores to quickly identify weak points in your AD environment.

RISK REMEDIATION TRACKING

Stay on top of remediation efforts with risk remediation tracking. Ensure that identified risks are being addressed promptly to reduce your AD attack surface.

HISTORICAL DATA AND TREND ANALYSIS

Gain valuable insights into your AD security trends over time, enabling you to identify improvement areas and make informed decisions to bolster AD defenses.

MULTI-DOMAIN AUDIT AND RISK TRACKING

Easily track and manage security risks across multiple domains. Drill down into detailed audit timelines and risk reports to keep your AD and Entra ID environments secure.

SCHEDULED SCANS

Automate AD scans for continuous monitoring and timely risk updates—stay proactive without manual effort.

HOW IS NETWRIX PINGCASTLE DIFFERENT?

FLEXIBLE AND SCALABLE

Netwrix PingCastle adapts to organizations of all sizes with three tiered editions plus a free version. From out-of-the-box reports to advanced enterprise features like rule customization and role-based access control (RBAC), organizations can choose the perfect fit for their needs and budget.

UNMATCHED VISIBILITY INTO RISKS

Unlike traditional tools that rely solely on configuration checks, Netwrix PingCastle leverages both protocol-level scanning and security configuration analysis to deliver complete AD risk insights.

API INTEGRATION

Netwrix PingCastle's robust API enables smooth integration into existing security workflows. Customize, automate, and streamline core platform tasks to enhance your security operations and gain actionable insights.
